

HENLEY ON THAMES TOWN COUNCIL
MILL LANE (OFF STREET PARKING PLACE) ORDER 2008

The following is a statement of the Council's reasons for proposing the above-mentioned Order, a copy of which is made available for inspection at the Town Hall, Market Place Henley on Thames Oxon RG9 1JH. The proposed Order controls the classes of vehicles permitted to use Mill Lane car park, the times of use and introduces charges during certain times.

The introduction of these measures is to improve the safety management of the car park including ensuring parking is in designated areas thereby limiting the impact in non designated areas in order to protect the amenity value of the site, horticultural and wildlife areas. Improved control of parking will also promote better access for emergency and works vehicles to Mill / Marsh meadows. Limiting the class of vehicles permitted will assist in alleviating traffic management issues and ensure that the car park is primarily used as an amenity to support the quiet enjoyment of Mill / Marsh meadows by residents and respectful visitors.

J Samuels
Town Clerk
30 July 2008
